

MOULIK DAYAL

Data Scientist

+91-9560813210 dayalmoulik5@gmail.com linkedin.com/in/moulik-dayal-a95751b7

Leveraging Data Science to help companies align all data and analytics initiatives to meet enterprise objectives. Versatile & multi-tasking professional targeting to express potential in challenging assignments with an esteemed organization for mutual growth.

Education

- 2022: PG Diploma (Artificial Intelligence) | CDAC Pune, Grade A with 81.38% marks
- 2016: B.Tech. (Computer Science Engineering) | Bharati Vidyapeeth College of Engineering, Delhi

Academic Project: Mental Graph of User from Social Media Posts Applied NLP techniques to analyze social media data for classifying anti-national posts, using Python, Tensorflow, and data visualization tools.

Knowledge Purview

Machine Learning Algorithms
Requirement Gathering & Analysis
Data Science & Analytics
Data Mining, Cleansing & Modeling
Data Visualization & Handling
Exploratory Data Analysis
Data Augmentation
Time Series Analysis/ Hypothesis Testing/ Random Forests
Regression Analysis
Supervised & Unsupervised Learning
Client/ Stakeholder Management
Cross- Functional Collaboration

Profile Summary

- A competent professional and aspiring Data Scientist with over 3 years of experience and a strong foundation in Machine Learning and Deep Learning, aiming to leverage AI expertise to deliver impactful business solutions.
- Skilled in developing & implementing data-driven solutions that drive revenue and optimize performance.
- Proficient in Python and experienced in building Machine Learning models using Scikit-learn and Tensorflow, with strong skills in data manipulation and analysis using Pandas and NumPy.
- Skilled in applying Deep Learning techniques for Natural Language Processing (NLP) and Computer Vision, combined with practical knowledge of SQL for database management.
- Demonstrated experience as a Project Engineer at CDAC Pune, developing and teaching AI curricula under the FutureSkills Prime Project, impacting students and government officials.
- Delivered engaging webinars and offline courses on AI, including sessions for Pune Airport CISF and Nirmala College for Women, fostering awareness and expertise in Artificial Intelligence.
- Actively engaged in professional development through participation in industry conferences and workshops, ensuring up-to-date knowledge of emerging trends and technologies in data science and AI.

Certifications & Courses

- Natural Language Processing Specialization from Deeplearning.AI through Coursera.
- Deep Learning Specialization from Deeplearning.AI through Coursera.
- Data Science, Machine Learning, Deep Learning and Tableau from Ivy Professional School, Delhi in 2019-2020.

IT Skills

- Python for data analysis and machine learning model development.
- Scikit-learn and TensorFlow for building predictive models.
- Data manipulation and analysis using Pandas and NumPy.
- SQL for effective database management and querying.
- Natural Language Processing techniques for text analysis.
- Computer Vision applications for image processing tasks.
- Data visualization tools for presenting analytical results.
- Hugging Face for NLP model development.
- ML Ops for deploying machine learning solutions.

Significant Achievements

Nov'22-Present: CDAC Pune as Project Engineer

- Designed and delivered curriculum in the field of AI under the FutureSkills Prime project for college students and government officials across various organizations.
- Organized and facilitated webinars to generate AI awareness in colleges and for Pune Airport CISF personnel.
- Led an offline AI course at Nirmala College for Women, Coimbatore, as part of the FutureSkills Prime initiative.
